## XURAA CHOMT – LIFEPATH

Family: Urban Homeless, both parents still alive but vanished (?zombied). Childhood spent in an aquatic pirate pack. Four siblings; M older hates, F older hates, M older hates, M older neutral.

Traits (may be edited later): Rebellious, antisocial, violent; values a personal hero (a pilot); keen honour, keeps her word; hates most people, wipe 'em out; favoured possession: Toy action figure of Top Gun.

Y1: Made enemy of co-worker (fellow in unit) I humiliated, will avoid if possible, he has no forces beyond self

Y2: Made enemy of boostergang member, by betraying them, we hate each other but I don't care, he has a few friends

Y3: Romantic affair, Kevin Bonner, pinched him off a mate, (Y4) she hates me but has no forces, I would cheerfully backstab her again if needed, affair happy. Kev may well be a zombie now...

Y6: Made a friend in the police (?military police) +2 for Streetwise

Y7: Crashed; hospitalized for a month. Vehicle link fitted this year!

Y9: Powerful Corporate Exec owes me a favour, if he's not a zombie

She had flown in a couple of replacements and had been waiting to take away the men rotating out when the zombies came. She is twitchy stuck down here with no aircraft to fly!
